THERAPY CHAIR

HIGHEST COMFORT, ATTRACTIVE DESIGN IN ADDITION TO FUNCTIONALITY AND SAFETY

- Comfort-1 is purpose-built for shorter medical procedures, making it ideal for tasks such as plasma and blood collection, hemodialysis, infusion therapy, one-day surgery, chemotherapy and more
- The vertical footrest design ensures easier entry and exit from the front of the therapy chair while the tilt-up armrests allow seating from the side
- Comfort-1 is equipped with a user-friendly remote controller featuring a liquid-proof housing with IP X6 protection
- Comfort-1 offers a wide range of customization options
- Customers are provided with a palette of over 40 different upholstery colours to choose from

* Chair in the photo includes some optional elements

Comfort-1 Eco

ART.-NR. 723C1E01

The simultaneous adjustment of the backrest and legrest allowing patients to quickly and easily find their desired position, reducing the time needed for adjustments and enhancing overall efficiency in medical settings. The dedicated function button for the Trendelenburg position provides peace of mind in emergency situations, allowing health-care providers to swiftly reposition patients for optimal care and safety.
